**RESPONSE TO RESTRICTION REQUIREMENT**

Dear Sir:

In response to the Restriction Requirement of July 28, 2008, and in accordance with the provisions of 37 C.F.R. §§1.111 and 1.143, Applicants elect **Group II**, Claims 2-5, 7-8, 12-14 and 20-22, with traverse, drawn to a method comprising increasing expression, activities or levels in a plant of an *Arabidopsis thaliana* CDK;B1;2 plant B-type CDK protein, for continued prosecution in this application.

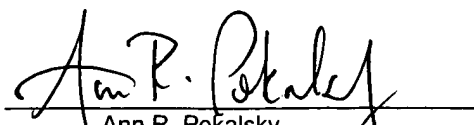

Applicants respectfully ask the Examiner to reconsider the restriction requirement and rejoin at least Groups I, II, III, IV, V, and VI since these groups comprise the common features of (i) a PPTALRE motif, (ii) a catalytic kinase domain, and (iii) a T-loop activation kinase domain. The common technical feature linking all these groups is the finding that various yield-related characteristics may be modified in plants using a CDKB comprising these features.

Reconsideration and rejoinder of claims at least Groups I, II, III, IV, V, and VI is respectfully requested.

Respectfully submitted,
